Notes/Comments

1. Testing and specifications as per OAR 333-008-1190.
2. milligram (mg), gram (g)
3. unit = package quantity provided by manufacturer, unit is not equivalent to recommended serving size
4. LOQ = Limit of Quantitation. Compounds detected below LOQ are below the calibration range of the method and are not quantified.
5. Potency levels are reported as is in the sample submitted. Sample represents final product of useable marijuana that is not intended to be heated prior to ingestion.
